

Protection zone application supporting details

Note: Please complete this form for all types of protection zone applications, including determinations, variations, and revocations.

Reason for the submission	
<p>Justification for the protection zone application being sought.</p> <p>Explain why the requested prohibition or restriction of activities will avoid or reduce risks to human safety or to the integrity of offshore renewable energy infrastructure (OREI) or offshore electricity transmission infrastructure (OETI)</p> <p>Explain why the requested prohibition or restriction of activities will avoid or reduce the identified risks.</p>	
All parts of the proposed protection zone are within the Commonwealth offshore area:	
Timing	
Commencement date:	Termination date (where applicable)
Activities to be prohibited or restricted	(Not applicable for a protection zone revocation)
<p>Identify the:</p> <p><i>Examples: anchoring, recreational fishing that targets mid or upper-water fish, use of towing, operating or suspending from a, ship, a grapnel</i></p>	
<p>Activities to be prohibited:</p>	
<p>Or restricted within the protection zone:</p>	

Details of the Protection Zone**(Not applicable for protection zone revocation)**

Please provide the following information as part of your application as a separate attachment:

Note: When submitting the information below, please ensure that you take into account the requirements outlined in the OIR safety and protection zones guideline Document No:N-04405-GL2115 A954508

1. OREI or OETI to which the determination relates. Please provide:
 - Name/Identifier of all infrastructure related to the protection zone
 - Location coordinates of OREI or OETI related to the protection zone (Latitude and Longitude (hh:mm:ss:ss) in GDA94
 - Expected commencement date
 - Expected termination date (if known)

2. Area of the protection zone:
 - Provide the latitude and longitude, using GDA94, of each point of the notional line surrounding the proposed area.
 - Alternatively, if the area of the proposed zone is a set distance from the outer edge of infrastructure, please provide the latitude and longitude, using GDA94, of the relevant infrastructure and the distance sought from the infrastructure. Please note distance sought cannot exceed 1852 meters on either side.
